

RADIAL ANGIOGRAPHY CATHETER

AVAILABLE AS OEM/ODM

The Diagnostic Catheter Portfolio features high-density braiding for excellent responsiveness, offering dedicated and universal nylon catheters with superior pushability and kink resistance. The SUPER TORQUE PLUS portfolio, made of polyurethane, provides one-to-one torque control, kink resistance, and consistent lumen diameter across various shapes.

Soft tip reduces potential for vessel trauma
Double braided stainless steel for 1:1 Torque control
Maximum Guide wire: 0.038" (0.97 mm.)
Maximum Pressure: 1200psi (84 bar)
